Fee: \$150

Take your painting skills to the next level by joining this class. We will push your limits to get you producing finished quality paintings. In doing so, you will master the mystery of “lost” edges, become adept at editing, start thinking about composition and placement of your center of interest on the page, use of light source & shadow to define shapes and space, and become a master at using shapes to define what the viewer sees rather than overpainting detail.

- **We'll be using quality watercolor papers**
- **Sample a broader range of brushes in learning how to achieve different effects**
- **Become more conscious of pigment color selections & mixing**
- **Gain deeper understanding of how negative shapes, preserved whites of the paper and shadow can unify and define a painting**
- **Use of values in building interest, or play a supporting role in emphasizing what's important for the viewer to see in your painting**

**Sign up today and begin your growth as
an accomplished painter!**
